# About **col·lab·o·ra·tion**

Is the action of working with someone to produce or create something.

I believe in diversity, the power of global teamwork, and that by working together as one, we can deliver the most creative work. Since I started my Interior design studio, Art and traveling have been my inspiration and passion. I have always worked in collaboration with many artists. And from all my experience from traveling around the world, going to art and design fairs, as well as getting involved with all their different cultures, I have realized that we are all connected somehow or another. That feeling of connection and belonging, is the same feeling that I work to bring on my projects.

My team and I have spent this past year working on the idea of connecting and creating a collaborative space with other artists and cultures by integrating art and interior design. A concept we call “utility art” “ Art -Object” .

To finally begin this dream we started with Textiles, creating Limited editions of Decorative Pillows.

You will soon see the amazing results of hard-collaborative-work.

## About **col·lab·o·ra·tion**

“ This project started by an invitation from the artist Napoleon Graziani after two years of research on expressing his art in a new way and bringing it into our homes. Graziani reached out to his long-time friend, Mercedes Grossmann, based in Miami, FL. She is known for her upscale residential interior design, her interest and curiosity in cultures around the world and for her collaborations with renown artists and supporting those emerging.”

They worked together on the selection of materials and artwork for the first Limited Edition, using the finest Italian technology and the best digital printing machines.

Under the premise, “the future is about innovation and having the capacity to create new products,” Napoleon brings his new line to decorate your home with Art Collection. With this collaboration, they seek to cover an underexplored market by great artists with Napoleon’s artwork presented in ten decorative pillows of different sizes.”

# Napoleón Graziani

featured artist

Napoleón Graziani is an out-standing Venezuelan artist with a wide trajectory in the arts for more than 20 years.

At an early age, he studied arts at the Contemporary Art Museum “Sofia Imber” (MACSI), in Caracas, Venezuela. Later he joined the School of Fine Arts “Arturo Michelena” in Valencia, his hometown, where he studied pure art. Participated in the “Philip Art Expression” for young talents in 2002, and his artwork entitled “Cerros de Caracas”, received the 2nd Prize award of the event. He moved to Panama City and now he lives in Bogota, Colombia.

Today, his work is represented in several important art collections all around Venezuela, USA, Europe and Caribbean countries.

# “ISOLE”

a Limited Edition Collection

This Collection is called “Isole,” and it’s Limited edition. They are digital printed pillows inspired by the Italian islands, from the tiny uninhabited islets to the country’s largest island.

*“La paleta de color que esboza el amanecer del cielo mediterráneo, aunado al sol de medio día que, reflejando su luz sobre las ondas de sus mares azules, provoca e invita a adentrarse en un lugar mágico, vibrante, cálido y frío en perfecta conjunción e idóneo equilibrio.*

*De norte a sur de la gran bota que forma la orografía italiana, sus islas tienen una espléndida e inspiradora vista. En ellas he encontrado una gran cantidad de argumentos para así representarlos en mis obras de arte, esta vez plasmadas en la colección “Isole” de Dynamic Home.*

*Con variados diseños y tamaños, extiende la oportunidad no solo a los coleccionistas de arte, sino también a los exquisitos amantes del diseño interior y del buen gusto, una verdadera ocasión excepcional. Únete al selecto grupo y forma parte de esta edición limitada.”*
